EDUCATION

Bachelor of Technology(B.TECH) , Gov. Eng. College (Siwan)	2020 - 2024
BEU(Patna)	CGPA: 7.89
12th, CBSE , P.C.M	2017 - 2019
J.D PUBLIC SCHOOL	Percentage: 65%
10th, CBSE	2005 - 2017
HOLY KIDS INTNL SCHOOL	CGPA: 10

SKILLS

Technical Skills	Data Structures and Algorithms, HTML, CSS, JavaScript, Express.js (Backend Framework) React.js (Frontend Framework), Node.js (Backend Runtime Environment), MongoDB (Database) .
Languages	C/C++, Python .
Soft Skills	OS, DBMS, OOPS and Computer Network.
Tools	Postman, Git, and GitHub.

PROJECTS

AI GPT Clone. Built a Chat GPT AI clone for multi-functional text and image generation. Key features include:

- Developed features to generate text summaries, paragraphs, imageToText, and JavaScript code from English instructions.
- Enhanced application security with API key-based authentication.
- Designed a scalable back-end with MongoDB for robust data management, ensuring efficient handling of user sessions, authentication, and AI-generated content.
- Built a dynamic and interactive user interface using React.js and Vite.
- Integrated Bootstrap for responsive and visually appealing design.

[🔗\(Try it here\)](#)

Go Food. Built a Food Delivery App using the MERN stack. Key features include:

- Integrated Bootstrap for a responsive and user-friendly design.
- Using MongoDB to store user interactions and manage session data efficiently.
- Leveraged useReducer and Context API for state management across the application.
- Enhanced security by implementing Bcrypt hashing for secure user authentication and data protection.
